

LoTi Mentor Certification Institute

Promote higher levels of teaching innovation (LoTi) in the classroom

Integrate 21st Century Skills into the K-12 Curriculum

Improve student achievement based on statewide assessments

The LoTi Mentor Certification Institute is an onsite or online institute designed to provide building and district administrators, mentors, and lead teachers with the skills, strategies, and resources necessary to move their school building or district to a higher level of teaching innovation as well as improve student achievement. The emphasis is on the processes underlying powerful teaching and learning as well as skill development in the area of planning effective staff development at the “Target Technology” levels, conducting clinical observations, and delivering efficient and differentiated instructional technology professional development to staff. This institute will provide you with a data-driven approach to professional development planning and implementation at the building and district levels.
